Calgary Scientific Inc. Medical Group Announces the Addition of Dr. James Brink to its Advisory Board

CALGARY, AB. November 20, 2007 – Calgary Scientific Inc. Medical Group (CSIMG), a leading ease-of-use provider of advanced visualization and analysis software for integration with PACS, RIS, HIS and other medical system OEM partners, and a business unit of Calgary Scientific Inc. (CSI), today announced that Dr. James R. Brink, MD, FACR has joined its Medical Advisory Board. Dr. Brink is professor and chair of the Department of Diagnostic Radiology at Yale University School of Medicine and chief of diagnostic imaging at Yale-New Haven Hospital. Dr. Brink will provide his expert advice and feedback into the ResolutionMD™ advanced visualization suite of products and their integration into seamless workflows that that improves disease diagnosis and the use of the radiologists' time.

“We are extremely pleased and honored that Dr. Brink has joined our advisory board,” stated Dr. Byron Osing, CEO of Calgary Scientific Inc. “Dr. Brink is a highly respected medical professional and educator with extensive advisory board experience and an enthusiasm for technology innovations that improve the practice of radiology. His decision to join our board is further validation for our product roadmap and the commercialization of the leading ease-of-use advanced visualization suite of products for OEM integration.”

Dr. Brink added, “I am impressed with the people, product vision and rapid progress achieved by Calgary Scientific in developing a truly innovative suite of advanced visualization products. I am pleased to be joining their medical advisory board and look forward to exciting developments in imaging technology.”

About Dr. James Brink, MD, FACR

Dr. Brink is professor and chair of the Department of Diagnostic Radiology at Yale University School of Medicine and chief of diagnostic imaging at Yale-New Haven Hospital. Dr. Brink leads a growing department of more than 70 full-time faculty, who collectively provide all diagnostic imaging services for Yale Medical Group and Yale-New Haven Hospital and conduct research in a variety of disciplines related to clinical radiology and imaging science. Dr. Brink is a fellow of the Society for Computed Body Tomography and Magnetic Resonance and the American College of Radiology, and he is an elected member of the National Council on Radiation Protection and Measurements (NCRP). Dr. Brink serves on the board of directors of the Academy of Radiology Research, the executive council of the American Roentgen Ray Society, and the education council of the Radiological Society of North America. Nationally recognized as an outstanding educator and an authority on abdominal CT imaging, Dr. Brink has pioneered technologies for maximizing resolution in helical CT scanning while minimizing radiation dosage and risk to patients.

About Calgary Scientific Inc.

Calgary Scientific Inc. is a software and intellectual property development company specializing in sophisticated digital signal, image processing and analysis technology. Through its Medical Group business unit, the Company offers software designed to maximize the value of medical imaging data and to make it more accessible, thereby improving quality of care while reducing costs associated with image-based medical diagnosis and procedures. The company currently has 13 patents approved or pending approval. www.calscimed.com.
