## **MacPractice, Inc. and Calgary Scientific Inc. Announce Industry First FDA-Approved Integrated Practice Management / Medical Imaging Software Solution**

***Companies are first to deliver FDA-Approved advanced 3D medical visualization software incorporated with leading practice management application.***

LINCOLN, NE. and CALGARY, AB. January 5<sup>th</sup>, 2007 – MacPractice, Inc., a leading developer and supplier of client-centric practice management software solutions and Calgary Scientific Inc., a leading developer of advanced 3D medical image visualization software solutions today announced the signing of a product integration and distribution agreement for the ResolutionMD™ product family developed by Calgary Scientific Inc.

Designed for use by primary and specialty care physicians, chiropractors, dentists, optometrists, , MacPractice software now will incorporate ResolutionMD™ software as an optional module for viewing CT, MR and ultrasound scans, making it an even more powerful solution for radiologists, cardiologists, neurologists, orthopedists, medical imaging facilities and other specialty practices. The integrated product line combines best-of-breed technologies into the industry's first medical practice management software solution that is equipped with FDA-approved medical imaging visualization and analysis software for use on the Mac OS X platform. This solution is available at a fraction of the cost of traditional systems.

Mark Hollis, President of MacPractice, Inc. states, "Bringing such powerful, easy-to-learn and use tools to the desktops and laptops of physician practices at a fraction of the cost of traditional systems enables medical practices of all sizes and their patients to benefit from the latest advances in practice management and medical imaging technologies."

"With access to medical scans in both 2D and full color 3D views right on the same desktop managing patient record information, doctors are able to assess and communicate injuries and disease faster and more clearly, accelerating and improving the quality of patient care," says Byron Osing, CEO of Calgary Scientific Inc.

MacPractice and Calgary Scientific demonstrate a key synergy: the mission of creating best-of-breed products that are easy to learn, use and maintain and are affordable to healthcare organizations of all sizes.

Product bundle is available immediately. Fully integrated product release timeline is expected to be late Q1, 2007.
