**Calgary Scientific Inc. Medical Group Announces Multiple New OEM Partners Offering ResolutionMD™ Advanced Visualization Product Suite**

**OEM Solutions enable PACS and other medical systems vendors to rapidly expand their product offerings and address customer demand with powerful advanced visualization**

**CALGARY, AB, November 25, 2007** - Calgary Scientific Inc. Medical Group (CSIMG), a leading ease-of-use provider of advanced visualization and analysis software solutions, and a business unit of Calgary Scientific Inc. (CSI), announced today that several new OEM partners have integrated ResolutionMD with their products. This announcement was made today at the 93rd Scientific Assembly and Annual Meeting of the Radiological Society of North America (RSNA), being held at McCormick Place in Chicago until November 30, 2007. Several of these new partners will be exhibiting at RSNA2007 including: American Medical Sales Inc., eRad, Exxim Computing Corporation, Intuitive Imaging Informatics LLC, Novarad Corp., and VISUS USA LLC. CSIMG will be demonstrating current stand-alone and PACS-integrated applications, a new enterprise web server, and providing exclusive briefings of several new technology innovations at Booth #4525 Hall A.

"Calgary Scientific's focus of providing advanced visualization specifically for OEM integration has enabled us to rapidly expand our product offering and value to our customers," stated Jim Connors, Vice President Product Management for eRad.

"We are pleased to be working with Calgary Scientific Inc., Medical Group," added Tom Borger, Vice President of VISUS USA. "They have demonstrated an unmatched ability to bring exciting new advanced visualization products quickly to market and they are deeply committed to working with their partners."

"To address the growing demands for advanced visualization, OEM vendors asked us for a comprehensive approach that included intuitive easy-to-use products, flexible tools with services for rapid and seamless implementation into existing workflows and programs that enabled rapid market presence," remarked Byron Osing, CEO of Calgary Scientific Inc. "We developed our OEM Solutions framework to focus on those requirements and are poised to deliver our powerful and highly adaptable advanced visualization products to desktops and laptops across their customers' enterprise. We look forward to our partnerships with these highly respected organizations."

**About Calgary Scientific Inc.**

Calgary Scientific Inc. is a software and intellectual property development company specializing in sophisticated digital signal, image processing and analysis technology. Through its Medical Group business unit, the Company offers software designed to maximize the value of medical imaging data and to make it more flexible and accessible, thereby improving quality of care while reducing costs associated with image-based medical diagnosis and procedures. The company currently has 13 patents approved or pending approval. [www.calscimed.com](http://www.calscimed.com).
